

ILLUMINATI

Brand Guideline

Mission & Values

For people who light up the room.

We create spaces that remember who people are.

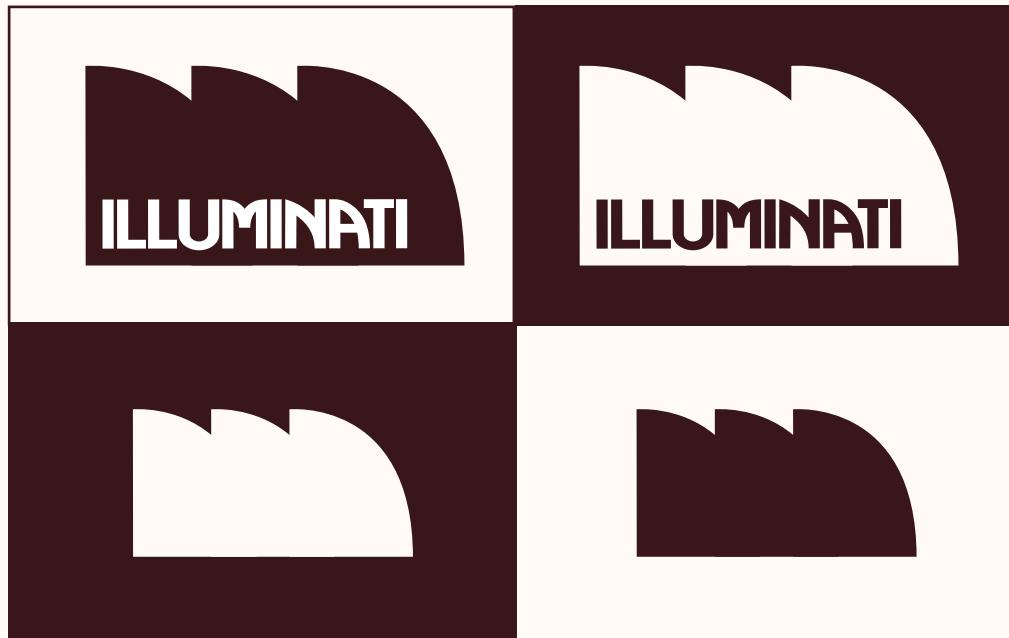

We create spaces that remember who people are. We believe the most memorable spaces feel collected, not decorated. They invite people in, start conversations, and leave a trace long after you've gone. Because a beautiful room may catch the eye, but a human room stays in the memory.

Logo Suite

ILLUMINATI

Primary Logo

Secondary Logo

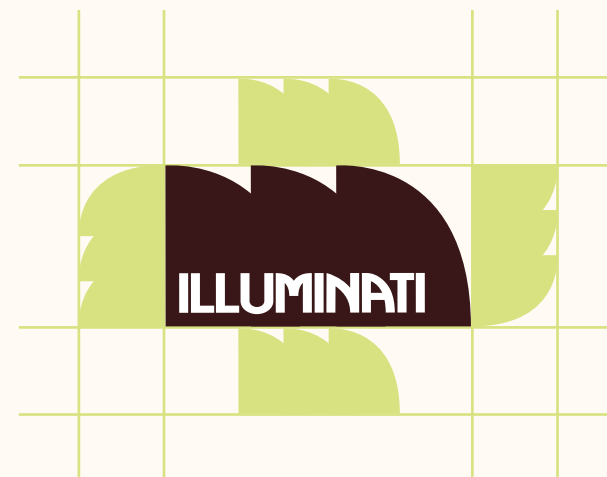

Logomark “Refractor”

Spacing

There should be sufficient clear space around the logo to let it breathe and prevent it's clarity and visual impact from being obstructed.

Spacing Indicator:

The "Refractor" shape sized at the form's side height is the guide for the minimum clear space that must surround the primary logo, secondary logo and lettermark.

Colour Combinations

For maximum legibility, accessibility and impact, the logos must be used only in the following combinations. Other combinations risk not having enough contrast to be seen comfortably and accessed properly.

Approved

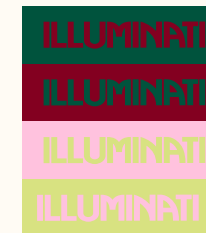

Generally Avoid

Under certain very limited circumstances is this allowed.

Do Not Use

Under NO circumstances is this allowed. If it hurts or you have to squint it's a NO.

Brand Colours

The suggested general colour usage ratio in relation to each colour is indicated by the shape size. They are permitted to be utilised in refined gradients.

Kelp, Dark Choc and Red Leather are the core primary mood drivers. Floss and Matcha are secondary accents that enliven the primary combos. Cappucino and Near Black are for essential details that require standardised simplicity.

Kelp HEX #03513e R3 G81 B62 C99 M40 Y81 K40	Dark Choc HEX #351919 R53 G25 B25 C50 M79 Y69 K73	Red Leather HEX #770523 R119 G5 B35 C28 M100 Y82 K36
Floss HEX #ffc5dd R255 G197 B221 C0 M31 Y0 K0	Matcha HEX #dae28d R218 G226 B141 C17 M1 Y63 K0	
Near Black HEX #351919 R17 G5 B5 C67 M70 Y66 K85	Cappucino HEX #ffffbf5 R255 G251 B245 C0 M1 Y3 K0	

Typography

The type used for the logo is only allowed for use as the logo. For visual and informational hierarchy, the header type must be larger size in relation to the body type. Do not alter the type's kerning (character spacing), the foundry pre-set this to optimal spacing. Set the leading (distance between lines) to roughly 120% of your font size for optimal paragraph readability. Stick to left-aligned text for body paragraphs, as justified or right-aligned text can create uneven gaps. Centre alignment can be used for short, single-line headings. Ensure paragraph lines do not break awkwardly. Leaving single words or short lines stranded at the top (widow) or bottom (orphans) of columns or pages disrupts the reader's experience. Ensure high contrast between the text colour and the background. Avoid putting similar colours next to each other (see page 5). Avoid ALL CAPS. Capital letters are difficult to read in blocks of text and should only be used for very short labels.

ILLUMINATI

LOGO (ROMĀNTICA)*
*height is slightly squashed.
